

Solar inverter explosion in Germany

Overview

In the German state of Schleswig-Holstein, an explosion tore away the outer wall of a show home equipped with solar panels and a residential battery. The badly-damaged building, which was vacant at the time of the incident, will likely be demolished. Image: Schönberg Volunteer Fire Department From. Last week, a photovoltaic battery presumably exploded in a residential building. The explosion might have been preceded by off-gassing, however it stays unclear.
