

Solar panel export data

Overview

According to Volza's Global Export data, World exported 99,811 shipments of Solar Panels from Jun 2024 to May 2025 (TTM). These exports were made by 10,887 Exporters to 15,104 Buyers, marking a growth rate of 23% compared to the preceding twelve months. China has invested over USD 50 billion in new PV supply capacity - ten times more than Europe - and created more than 300 000 manufacturing jobs across the solar PV value chain since 2011. Today, China's share in all the manufacturing stages of solar panels (such as polysilicon, ingots, wafers. Monthly data for 2021-2024 are based on a subset of the largest manufacturers representing about 90% of the previous year's total shipments. Average value of photovoltaic modules, 2024 See Table 3. Source and. The US solar industry installed 7. 5 gigawatts direct current (GW dc) of capacity in Q2 2025, a 24% decline from Q2 2024 and a 28% decrease since Q1 2025. Ember's China Solar Export dataset provides the following information: The IEA has stated that China's solar photovoltaic exports account for 80% of the global market. Access our tools to explore solar geospatial data for the contiguous United States and several international regions and countries. Find and download resource map images and data for North America, the.

Solar panel export data

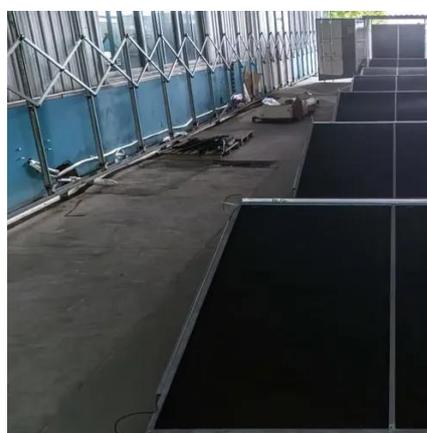

Global solar PV supply chain

Discover all statistics and data on Global solar PV supply chain now on statista !

[2026 Solar Industry Data and Insights](#) . [EnergySage](#)

An unparalleled data set. EnergySage collects millions of data points per week regarding the market dynamics of the U.S. solar industry. There is no other source of information that can provide as ...

China's Solar PV Exports

The latest monthly solar PV export data from the world's largest exporter, China, by country or region of destination.

[2024 Monthly Solar Photovoltaic Module Shipments Report](#)

Data source: U.S. Energy Information Administration, Form EIA-63B, Monthly Photovoltaic Module Shipments Report Note: Includes both domestic shipments and exports.

Solar Market Insight Report Q3 2025

While US solar projects rarely source solar panels from China, some parts of the supply chain are fed by China headquartered companies or include technologies with patents held by ...

Solar Panels Exports from World

These facts are updated till Dec 5, 2025, and are based on Volza's Global Export data of Solar Panels. Paid subscribers can gain full access to the most recent Volza export import data.

[China Exports 235.9 GW of Solar Panels in 2024](#)

China exported 235.93 GW of PV modules in 2024, up 13% from 207.99 GW in 2023, according to customs data from PV InfoLink. Global module shipments increased 13% year on year, ...

[Solar Pv Panel Import Data with Global Buyers & Shipment Records](#)

Discover the Solar Pv Panel export data with product description, export values, quantities, exporter name, country of origin, and key destinations. Track the performance of leading exporters worldwide ...

[Executive summary - Solar PV Global Supply Chains](#)

Solar PV products are a significant export for China. In 2021, the value of China's solar PV exports was over USD 30 billion, almost 7% of China's trade surplus over the last five years.

[Solar Resource Data, Tools, and Maps , Geospatial Data Science , NLR](#)

Solar Resource Maps and Data Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. Solar Supply ...
