

# Solar photovoltaic power station depreciation

## Overview

---

The IRS allows businesses and individuals to depreciate the cost of their solar energy system over a set period. For solar projects, the IRS depreciation period typically follows the Modified Accelerated Cost Recovery System (MACRS). Under MACRS, solar systems qualify for a 5-year . Solar photovoltaic (PV) panels deliver a host of financial and environmental benefits to businesses looking to reduce energy spending and shrink their carbon footprint. However, the efficiency, value, and performance of PV panels all decline with age. And in order to maximize the return on. The OBBB signed into law by President Trump on July 4, 2025, fundamentally alters the depreciation landscape for solar energy systems.

## Solar photovoltaic power station depreciation
