

# Solar power generation tax

## Overview

---

The credit amounts and types of qualifying expenses were expanded by the Inflation Reduction Act of 2022. With a host of tax and incentive programs, there are many reasons for taxpayers to install solar power generation systems. The tax. On July 4, 2025, President Trump signed into law Congress's budget reconciliation bill, H. 1—commonly known as the One Big Beautiful Bill. This legislation brings significant changes to the federal tax credit for residential and commercial solar and battery systems. Third-party owned systems (leases and PPAs) continue to qualify, with the credit going to the system owner, who may pass on the savings through to lower rates. The ITC allowed homeowners to.
