

# Solar power plant construction in Brazil

## Overview

---

The Brazilian solar sector is experiencing a rapid expansion, with planned utility-scale installations amounting to more than 139 gigawatts as of February 2025. Of these, more than 120 gigawatts were in the construction and pre-construction stages. Log in or register to access full. Rio Urucuia is a 142 MW Scatec-owned solar PV project located in the state of Minas Gerais, Brazil. This will mark a key addition to Brazil's. ArcelorMittal and Atlas Renewable Energy complete construction of a solar plant in Minas Gerais, Brazil December 9, 2025 Press Releases The Luiz Carlos Solar Plant, located in Paracatu, Minas Gerais, received investments of R\$895 million. 9 GW at February 2025, which consists of about 21.9% of the country's electricity matrix.

## Solar power plant construction in Brazil

### Solar PV in Brazil

In 2020, the country's installed solar PV capacity stood at 8.5 gigawatts. By the end of 2024, this had grown to roughly 53 gigawatts. The Brazilian solar sector is experiencing a rapid

### [Atlas secures US\\$448m loan to build a 902 MW solar power plant in ...](#)

Construction of the power plant started in 2023 and completion is scheduled for 2025. Once completed, the plant is expected to produce about 2 TWh/year of electricity, enough to power ...

### [ArcelorMittal Brazil signs contracts for two solar energy projects](#)

ArcelorMittal Brazil has today signed contracts for the development of two solar energy projects with a combined capacity of 465MW, equivalent to 14 per cent of its current electricity ...

### Solar power in Brazil

The total installed solar power in Brazil was estimated at 53.9 GW at February 2025, which consists of about 21.9% of the country's electricity matrix. In 2023, Brazil was the 6th country in the world in terms of installed solar power capacity (37.4 GW). Brazil expects to have 1.2 million solar power generation systems in the year 2024. Solar

energy has great potential in Brazil, with the country having one of the highest ...

### [Atlas Renewable Energy - Powered by Excellence](#)

The photovoltaic facility, located in Paracatu in northwestern Minas Gerais, is the steel producer's first solar plant in Brazil. It has an installed capacity of 315 MWp and is expected to ...

### [All to Know About the 142 MW Rio Urucua Solar Project in Brazil as](#)

The solar project has a long-term non-recourse financing and is current under construction with commercial operation slated for the first half of 2026. This will mark a key addition to Brazil's ...

### [Top five solar PV plants in development in Brazil](#)

Of the total global Solar PV capacity, 2.78% is in Brazil. Listed below are the five largest upcoming Solar PV power plants by capacity in Brazil, according to GlobalData's power plants ...

### [Solar power plants in Brazil: financing and construction](#)

New solar power plants in Brazil are being actively financed and built, gradually replacing fossil fuels and providing investors with impressive economic benefits. Solar energy in Brazil is increasingly being ...

### [Scatec Begins 142 MW Solar Plant Construction in Brazil](#)

Scatec's 142 MW solar plant in Minas Gerais represents a major step forward in Brazil's clean energy transition. With strong financial backing and strategic planning, the project is set to ...

### **Solar power in Brazil**

However, to meet energy demands in the entire country, and to diversify its energy portfolio, other renewable energy sources, such as solar power, are being expanded.

### [From Waste to Light: Brazil Transforms Landfills into Solar Power](#)

While the world searches for solutions to the climate crisis, Brazil is advancing rapidly--not only expanding its capacity but also innovating in how it does so.
