

Solar power shed manufacturer

Overview

Parasol Structures transforms ordinary parking lots into renewable energy powerhouses. At SteelPRO PEB, we've helped thousands of DIYers transform their backyards with steel sheds that are built fast, built to last, and ready to harness the sun. No engineering degree required. Just a precision-cut steel kit with pre-assembled solar mounts, bolt-by-number. All Parasol products are manufactured in the USA, using US steel and iron. Power your shed, workshop, or barn with Renogy's off-grid solar solutions. Get started today! . Solar-powered sheds have emerged as an excellent solution for anyone looking to integrate clean energy into their outdoor spaces, whether for storing tools, creating a remote workspace, or even setting up a cozy retreat. Unlike traditional sheds requiring wiring or proximity to a power source. This 20in deep by 7'6" ft tall lean-to is designed to house solar equipment requiring shelter from the elements.
