## Overview

---

Our solar mounting rail systems are widely used in rooftop and ground-mounted PV projects, serving installers, EPC contractors, and solar mounting distributors across global markets. Economical, attractive, easy to install, and sporting built-in wire management. See if you qualify for tax credits with 40-45% Domestic Content. Whether you desire the simplicity of a rail-less system, the reliability of a D-type rail, the stability. Hollaender® designs and manufactures structural aluminum pipe fittings that—combined with our piping--make stable, secure, corrosion-free mounting rack systems for both ground and roof mounted solar panels. The most corrosion resistant aluminum alloy available. Supported by our 10 year corrosion. Designed with contractors, Pegasus Rail makes every aspect of solar installation better. From the warehouse to the jobsite, from the box through a lifetime of service: Simple. We manufacture several solar mounting options for metal roofs, as well as bolt down and screw down systems for Asphalt, Tile, and Membrane.
