

Swedish Outdoor Power Household Battery

Overview

The expansion of PV systems in Sweden slowed in 2024 compared to the previous year, while investment in battery storage increased significantly. 2023 was a year to remember for solar power in Sweden, with a turbulent European energy crisis creating a unique interest in PV. Andersson, a Swedish homeowner, adopted XIHO Energy's 15kWh household energy storage to combat high electricity costs and ensure uninterrupted power during harsh winters, achieving 90% energy independence.

- Manufacturer: Shenzhen XIHO Energy Technology Co.
- Application Scenario: The Lindgren family resides in a suburban home in Pila's first-of-a-kind Battery Mesh Network coordinates all Pila batteries across your home to store solar or utility power, and optimizes energy for outage protection, bill savings and more. Pila keeps working even if home internet goes down.
