

# Tashkent energy storage policy

## Overview

---

New legislation passed in June 2023 offers: And get this – the World Bank's \$500 million Central Asia Clean Energy Fund prioritizes Tashkent-based storage initiatives. It's like finding a golden ticket in your Wonka bar. Flow batteries are gaining traction for long-duration. battery energy storage system?

ADB said it will be one of the first utility-scale renewable energy projects with a battery energy storage system (BESS) component in Uzbekistan. It follows the announcement of the county?

?

?

s first BESS in May 2024 and the connection of the first phase of a 511 MW. At the "Powering the Future" forum in Tashkent, Uzbekistan unveiled 42 renewable, storage, and grid projects, with international partners supporting a nationwide energy transformation. Every home in Uzbekistan could switch on the lights using only clean electricity in 2026. The storage facility is an EPC (engineering, procurement, and construction) project contracted by China Energy Engineering. This milestone marks that the first independent grid-side energy storage project in Uzbekistan's capital has officially advanced to the preparation for commercial operation, bearing great significance to enhancing local grid security and stability. One of the agreements outlines.

## Tashkent energy storage policy

---

Our Lifepo4 batteries can be connected in parallels and in series for larger capacity and voltage.
