

Tesla solar roof ukraine

Overview

American billionaire Elon Musk handed over Tesla Powerwall solar stations to Ukraine. When launching the solar roof in 2016, CEO Elon Musk presented it as a critical product to accelerate solar power deployment, as it opens up the market to people who want to go solar but also need to replace their roof soon. They came to two dispensaries in Borodyanka and Irpen, Kyiv region, and will provide autonomous electricity in the event of a blackout. This was reported by the Minister of Digital Transformation Mikhail Fedorov. More than 500 Tesla Powerwalls have arrived in Ukraine to support critical infrastructure, with transportation funding support from Direct Relief. The initial rollout seemed to be more of a testing phase, as the solar roofs were to be installed primarily on employee roofs.
