

Three-phase solar energy storage cabinet for weather stations

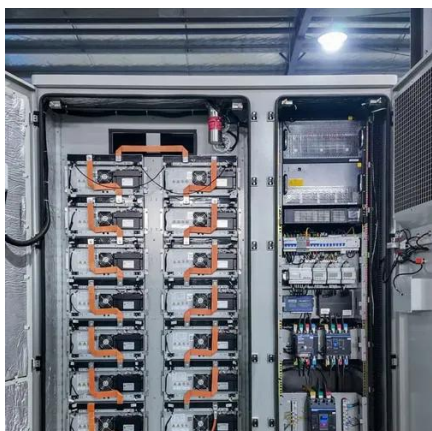

Overview

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet. One of our recent projects with a leading U. solar engineering company perfectly illustrates how E-abel helps partners expand their offerings through tailor-made solar battery storage cabinets, designed to house both inverters and battery systems. Our client, a reputable solar engineering service. AZE's 18U Wall mount Outdoor Cabinet are designed to protect your sensitive network equipment from harsh environments, with waterproof and dustproof features to safeguard it from the elements, while still keeping the equipment secure outside. Sustainable, high-efficiency energy storage solutions. It has the characteristics of high energy density, high charging and discharging power. SOFAR Energy Storage Cabinet adopts a modular design and supports flexible expansion of AC and DC capacity; the maximum parallel power of 6 cabinets on the AC side covers 215kW-1290kW; the capacity of 3 battery cabinets can be added on the DC side, and the capacity expansion covers 2-8 hours.
