

Vietnam solar Power Direct Sales

Overview

The new system establishes a direct power purchase agreement (DPPA) mechanism, enabling renewable energy producers to sell electricity directly to large consumers rather than through Vietnam Electricity (EVN). Decree 80, issued in July 2024, was Vietnam's first attempt to formalize. Decree 57/2025/ND-CP (“Decree 57”) introduces capped tariffs, rooftop solar limits, and wholesale market integration for Vietnam's renewable energy sector. Let us understand the new compliance, pricing, and infrastructure challenges that this decree brings. Wind, biomass, micro-hydropower, geothermal, wave, and tidal. On July 3, 2024, the government of Vietnam approved Decree No. Decree 57 took immediate effect and replaces Decree No.

Vietnam solar Power Direct Sales

[Government approves direct sales of renewable power](#)

Rooftop solar and other renewable power can now be sold directly through ...

[Clear Guidance for Direct Power Purchase Agreements in Vietnam](#)

EVN Power Purchase Agreement (EVN PPA): Under this agreement, renewable energy generators will sell their entire generation output to the national power corporation, Vietnam ...

[Vietnam proposes new rooftop solar rules, expands surplus power sales](#)

Implementation of Decree 58 has revealed persistent challenges in direct power sales from rooftop systems. In an earlier proposal, dated August 21, 2025, the Vietnam Electricity Group ...

[Direct PPAs - A new opportunity in Vietnam?](#)

This model applies only to solar or wind power projects that have a minimum capacity of 10MW and which participate directly in Vietnam's wholesale electricity market.

[Vietnam authorises DPPA for rooftop solar and biomass projects](#)

A recently issued government decree permits rooftop solar, waste-to-energy, and biomass projects to engage in direct power purchase agreements (DPPA) without routing through Vietnam ...

[Vietnam's direct power purchase agreement \(DPPA\) decree could](#)

This provision could allow the development of large-scale solar or wind farms at remote sites to supply industrial consumers directly. This landmark legislation could ignite a new wave of ...

renewable power purchase

Solar and wind energy generators must have a capacity of at least 10MW to sign a supply deal. Buyers and sellers can negotiate their own terms and prices for the direct sales, and excess ...

[Government approves direct sales of renewable power](#)

Rooftop solar and other renewable power can now be sold directly through private transmission lines without having to go through Vietnam Electricity as an intermediary.

[Vietnam allows direct solar and biomass power sales, bypassing EVN](#)

The Vietnamese Government has announced a decision to authorize rooftop solar, biomass, and waste-to-energy projects to engage in direct power sales, bypassing the Electricity of ...
