

Western Europe Northwest solar container system

Overview

The container is equipped with foldable high-efficiency solar panels, holding 168–336 panels that deliver 50–168 kWp of power. It is the perfect alternative to unstable grid power and diesel generators, keeping operations running even in remote areas or where infrastructure is. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container. Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, enables rapid and. As energy challenges grow, our solar container solution was created to meet the need. It provides clean, efficient power wherever you need it and can also generate profit. The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations.

Western Europe Northwest solar container system

Solarcontainer: The mobile solar system

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...
