

What is the EMS ranking of the Vatican communication base station

Overview

The Dicastery for Communication oversees the entire communications network of the Apostolic See and, with structural unity and respecting the relative operational characteristics, unifies the Holy See's activities in the area of communication. It does so in order that the whole system responds in a terminal that receives transmissions of telemetry and voice from the field and transmits messages back, usually through the base station. miniature transmitter that picks up a radio signal and rebroadcasts it, extending the range of a radio communications system. Main products: an electronic manufacturing service (EMS) company.
