The Visible Free Trial is a 15-day free trial that doesn't require a credit card to join. Get the full Visible network experience via eSIM, without the commitment.

What Is Visible Light?

Visible light is a type of electromagnetic radiation between the infrared and ultraviolet wavelengths, and it can be detected by cells in the human eye.

Visible Annual Plans

What plans does Visible offer? Visible offers both the Visible plan and Visible+ plan as either a monthly or yearly option.

What Is the Visible Light Spectrum?

Visible light is a form of electromagnetic radiation that the human eye can see. It has different wavelengths and colours, such as red, orange, yellow, green, blue, ...

Visible Light Definition and Wavelengths

Visible light is a range of electromagnetic radiation that can be detected by the human eye. The wavelengths associated with this range are 380 to 750 nanometers (nm) while the frequency ...
