

# Why install solar power in the house

## Overview

---

Not only does installing a solar energy system reduce your reliance on fossil fuels (which improves your air quality and protects the environment), but it can also save you \$25,000 to over \$110,000 over its lifetime. Solar projects are making it easier for Americans to choose solar energy to power their homes. If you're still on the fence about embracing solar power, here are ten compelling reasons why you should consider installing solar panels in your house. Solar panels are designed. In photovoltaic solar panels, the PV cells convert sunlight into electrical current. The sun's abundant, free energy makes solar power.
